Dear Parents/Guardians,

### Primary 2 Mother Tongue Portfolio File

At Primary 2, our key focus would be on building his confidence and desire to learn in his Mother Tongue Language. Thus, assessment will focus on providing rich information on the learning progress of your child/ward.

We hope to support your child/ward's development by developing a range of appropriate assessment modes for different purposes. Bite-size forms of assessment such as written tests, reading and performance tasks will be used to provide your child/ward with more opportunities to experience success and build his confidence and desire to learn. Teachers will also use a range of assessment strategies such as questioning, giving of feedback, and peer- and self-assessment to support your child/ward's learning.

In this portfolio, we have compiled all the pieces of your child/ward's work which represent his progress and achievements in the various areas of learning. We hope that this feedback can help support you and your child/ward to learn about his strengths, weaknesses and steps he could take to improve in his learning.

Last but not the least, we hope you enjoy browsing through this collection of your child/ward's work as much as we do!
