

C2HAMPS

C2HAMPS is an online portal and app developed for schools. It allows the schools to enhance the communication, dissemination and collection of information from school to parents.

Information from schools can be delivered to end users via email, SMS or mobile notifications via C2HAMPS app.

Parents are able to receive and send messages to teachers through the system.

For users who are not using any of the supported mobile devices, they would still be able to log on to the web portal to view the mobile notifications and access other functions.
